

MY PRETTY PONY™ GROOMING AND CARE GUIDE

AGES: 3 to 8

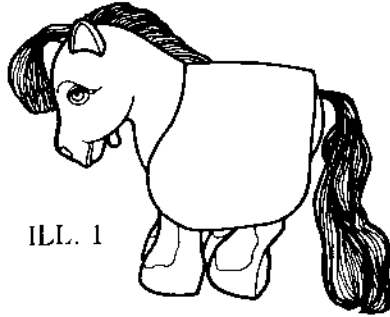

Dear Parent:

My Pretty Pony is every little girl's dream come true. She's adorable and lovable with a long and beautiful mane and tail your little girl can brush, comb, and tie with ribbons. My Pretty Pony is like having a real pony . . . she needs lots of love and care — and this guide will show you and your child how. And there's even a guide so that you can begin to teach your child how to braid hair and cut out more pretty blankets for Pony using the blanket pattern.

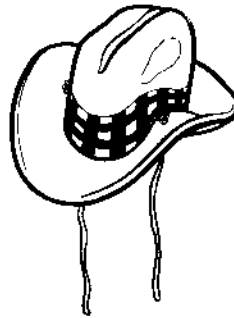

Dress Up My Pretty Pony

Pony's bright red blanket not only looks pretty, it keeps her warm. Place it on Pony so that the straighter edge faces the back. (ILL. 1) There's a pattern for making lots of pretty, colorful blankets for all occasions. (See "Making More Blankets" instructions.)

You can play with My Pretty Pony's hat as is or it can be fastened to the Pony's head with string (not included). Insert string through the two holes provided in the brim of the hat and knot each end as shown (ILL. 2). Tie the opposite ends of the string under the pony's throat in a bow.
