

How To Care For My Pretty Pony

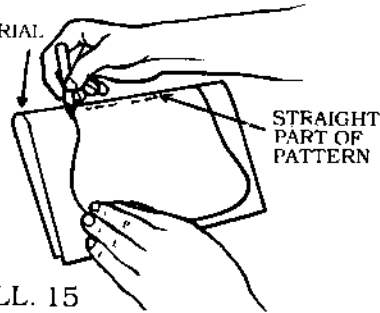

To keep My Pretty Pony clean, sponge her with soap and warm water. Keep her mane and tail dry. Dry her with a soft fluffy towel.

Making More Blankets

It's easy to make more blankets for My Pretty Pony. You can use scraps of any kind of material, but heavier fabrics (such as felt, wool or quilted fabrics) make a warmer, cozier blanket.

First, cut out the blanket pattern along the heavy lines. Then, fold your piece of material in half. Put the straight part of the blanket pattern (marked "Fold") along the fold in the material. Now, trace around the edge of the pattern with crayon or chalk. (ILL. 15)

FOLD OF MATERIAL

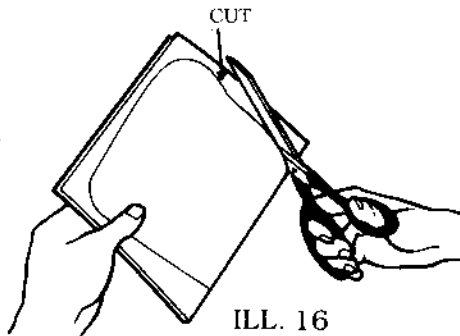

ILL. 15

Remove the pattern and put it away to use another time. Starting at the fold, cut along the line you have drawn on the folded material. (ILL. 16)

Now unfold the cloth, and there it is — another pretty blanket for My Pretty Pony. By following these instructions, you can make a whole wardrobe of blankets for My Pretty Pony.
