PONY PERM SHOPPE:

Taffy awoke to find a curler lying beside her bed. Rolled inside the curler was a note that read, "Bring this curler to the Pony Perm Shoppe for a special surprise!" When she arrived at the shop, she found all her friends gathered outside the door, each holding a note just like hers! "I wonder what the surprise is," wondered Taffy to her friends. Just then, the door to the Perm Shoppe swung open, and Fifi eagerly entered the shop, peeking in the rooms for their surprise. Fifi smiled mischievously at her curious friends, then began to wash Taffy's hair. Next she sprayed Taffy's hair with a mysterious solution from a glistening bottle, and rolled her hair in curlers. In just a few minutes, she unrolled her hair and combed it out. "What gorgeous curls!" cried Locket. "They're just as beautiful as Fifi's!" cried Love Melody. "Surprise!" cried Fifi with delight. "Introducing Fifi's Fashion Foam!" The other ponies could hardly wait for their turn to use Fifi's Fashion Foam and see what spectacular results it would bring!

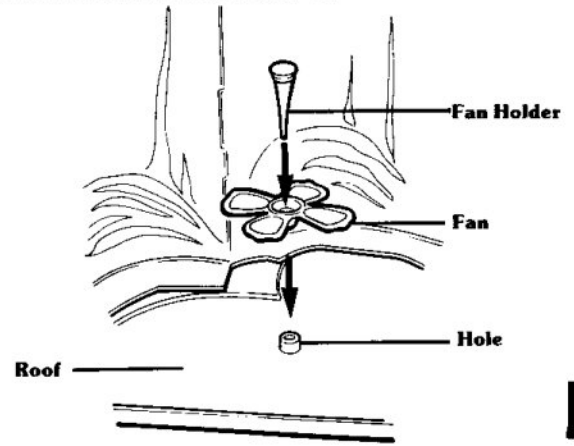

3. Insert light holder into hole in light. Press light holder into hole in roof. Repeat for other 2 lights. (ILL. 6)

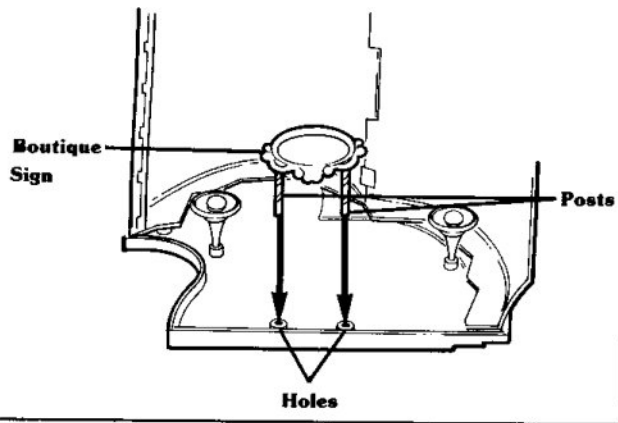

6

3. Insert fan holder into hole in center of fan. Press fan holder into hole in roof. (ILL. 3)

HOW TO USE FIFI'S™ FASHION FOAM:

Perm your pony's hair in minutes with Fifi's Fashion Foam!

- LIGHTLY spray pony's hair with Fifi's Fashion Foam. You need only a small amount of solution to perm pony's hair (about 3 pumps).
 - Place pony on a towel and comb solution through pony's hair. Comb hair for several minutes to make sure solution is applied evenly to hair.
 - When pony's hair is almost dry, roll hair in curlers. Remember: the more curlers you use and the less hair on each curler gives you tighter curls.
 - Leave hair in curlers for 5-10 minutes. After 5-10 minutes, unroll curlers and comb hair to style.
- NOTE: Pony's hair can be curled again without re-spraying. Simply roll hair in curlers again for several minutes.

HOW TO USE SHOWER:

Use the working shower to remove perm from pony's hair! Wash hair with your favorite shampoo or soap, rinse hair and allow to dry.

- Remove sink basin from counter. Fill basin with water to line marked inside basin. Remove center panel cover from center panel. Slowly pour water into reservoir. Replace center panel cover.
- Gently pull hose out of the wall as far as it can go. Press button on nozzle to start water flow. Shower nozzle will release water as long as you press button. To stop water flow, release button.
- After washing pony's hair, discard water in sink basin and drip tray. To help keep reservoir in good condition, completely drain reservoir after each shower. Allow pieces to dry before storing.

HOW TO USE MAKE-UP:

Use the 3 make-up applicators included with the Pony Perm Shoppe to apply make-up to your ponies! Create glamorous or fun looks for casual afternoon parties or elegant formal dances! Make-up is nontoxic and washes off easily using a soft face cloth, soap and water.
