

# My Little Pony Petite Ponies

## Royal Pony Palace™

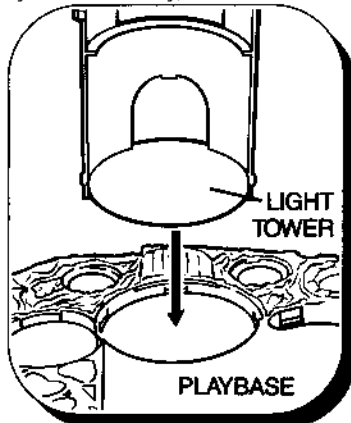

### Instructions

Adult assembly required.

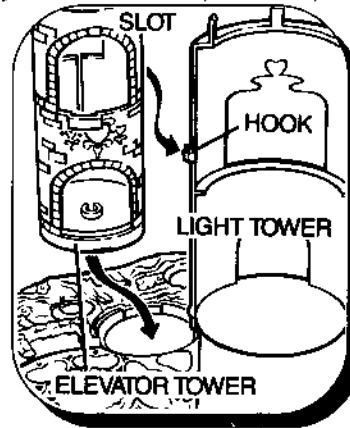

Remove all pieces from plastic frames. If you have difficulty, have an adult use safety scissors. Remove all pieces from plastic bags and discard bags IMMEDIATELY.

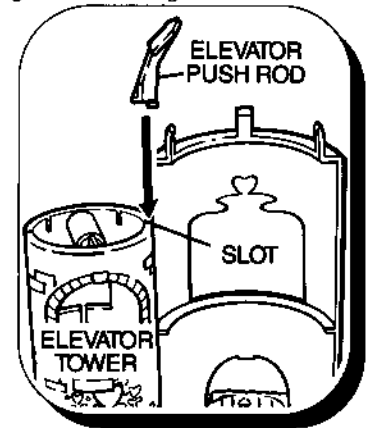

1. If elevator has become separated from elevator tower during shipping, insert elevator into elevator tower so that handle slides into slot.

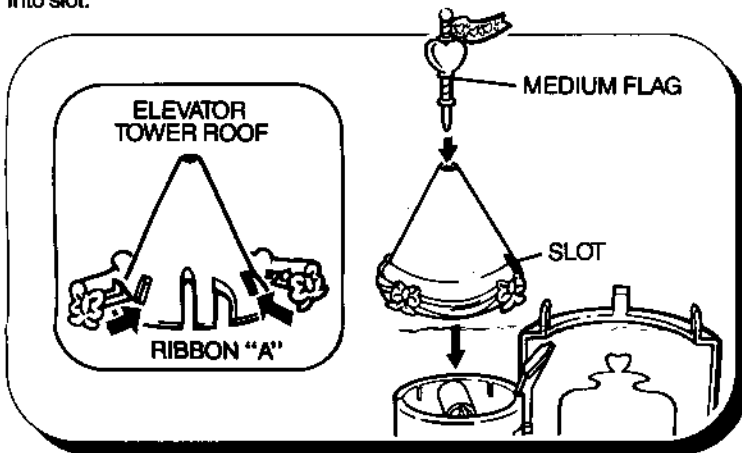

2. Snap light tower into playbase.

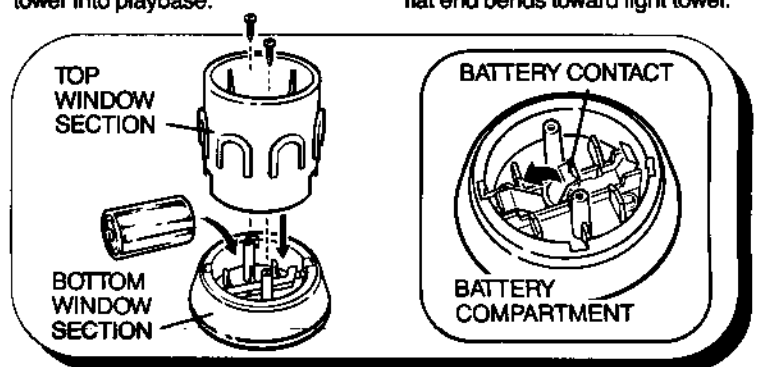

3. Insert hook on light tower into slot in elevator tower, and snap elevator tower into playbase.

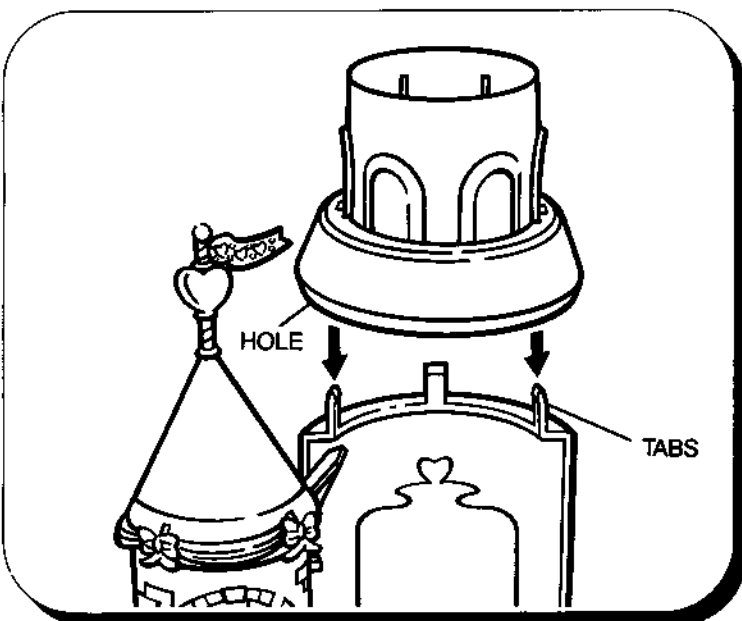

4. Place elevator push rod in slot in top of elevator tower so that long, flat end bends toward light tower.

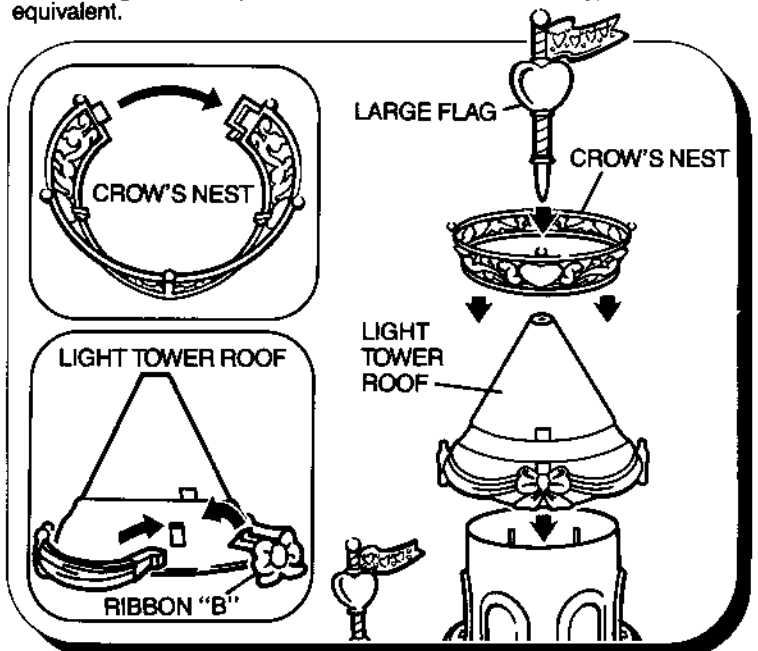

5. Insert posts on ribbon marked "A" into holes in elevator tower roof. Align slot on elevator tower roof with elevator push rod, and press roof onto tower. Insert post on one medium flag into elevator tower roof.

6. Remove cardboard insert from bottom window section. Insert one "C" size battery into battery compartment as shown. Place top window section over bottom window section and attach them with 2 screws included in package, using a Phillips® screwdriver (not included). (Inset:) To replace light, detach top window section from bottom window section. Remove battery. Slide battery contact forward and flip end up. Remove light, and replace it with General Electric® Type 112 bulb or equivalent.

7. Align elevator push rod with hole in bottom of window section, and snap tabs on light tower into holes in window section.

8. To attach ribbon marked "B" to light tower roof, insert hook located on end without bow into large hole in roof. Attach remaining hooks into holes in roof, placing last hook into large hole with first hook. Hook ends of crow's nest together and slip onto light tower roof. Press roof onto window section. Insert posts on large flag into hole in light tower roof.
