

# My Little Pony<sup>®</sup>

## BABY BONNET SCHOOL OF DANCE™

### Instructions

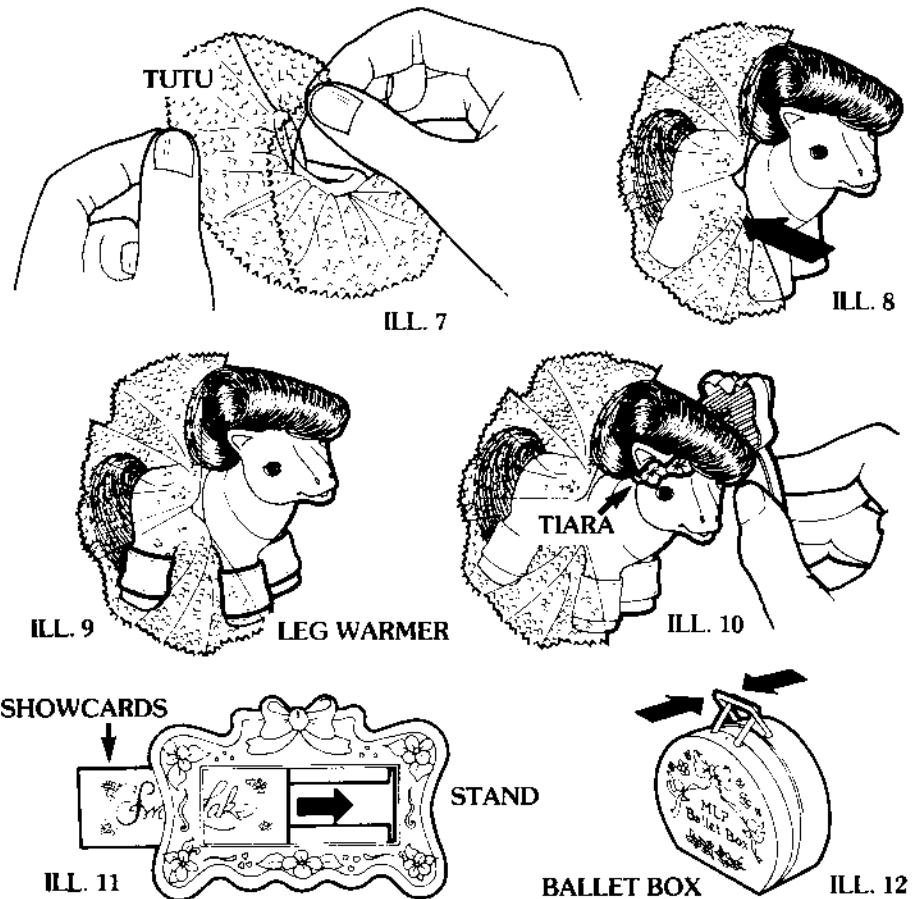

Time for ballet class!

1. Remove all pieces from plastic bag.
2. Playset door can be opened two ways. One way is to grasp the butterfly latch with your thumb and index fingers and pull downward with a gentle motion while securing bonnet with your other hand. (ILL. 1). Or, push the tab behind the butterfly through the opening on bonnet. (ILL. 2).
3. Peel and apply mirror label to back wall as shown. (ILL. 3).
4. Insert tabs on dance barre into holes in mirrored wall. (ILL. 4).
5. Peel and apply decorative labels as shown. (ILL. 5).
6. Remove characters from runner frames by twisting gently, or cut them off with scissors. Press matching halves together to form characters. (ILL. 6).

It's time for Baby Half-Note to get dressed for the big recital!

7. To make the tutu full and frilly, separate the four layers of netting, one at a time, by gently pulling them apart. (ILL. 7). Wrap the tutu around the baby pony so the opening is under the pony's body. Press ends together to fasten. (ILL. 8).
8. Place a leg warmer over each leg, as shown, to keep her ankles warm while she's dancing. (ILL. 9).
9. Place the flower tiara on pony's head, fitting it over her ears so it rests across her forehead. (ILL. 10). Brush her soft, silky hair before the show!
10. Separate showcards by gently tearing or cutting along the perforated lines. Select a card and slide it into the stand from the back. (ILL. 11).

11. Store Baby Half-Note's accessories in the Ballet Box. To open the box, press the handles together—the smaller handle will fit through the larger one. (ILL. 12). Press both sides of box together to snap it closed.
