

LABELS: Peel and apply labels as shown.

PONY "RAINBOW HOP"

For up to 4 players, plus the Rainbow Pony.

Object of the Game: To be the first pony to get from one end of the Rainbow Board to the other.

To Set Up the Game: Ponies place the Rainbow Board on the floor and the Rainbow Spinner on a flat surface. Ponies stand at one end of the board. Each pony chooses a different color: pink, purple, blue or yellow. One pony, called the Rainbow Pony, spins the Rainbow Spinner for the other ponies and calls out the color and hoof each time.

How to Play:

1. The Rainbow Pony spins and calls out which color and hoof is selected. The pony whose color is chosen hops to the circle with her color, using only the hoof chosen on the spinner. The Rainbow Pony continues to spin and tell the ponies which pony can move and which hoof to hop on.
2. Each pony must hop to every color circle on the board and cannot skip any circles.
3. If a pony misses her color circle or uses the wrong hoof, she must return to the beginning and start over again.
4. To win the game, the pony must spin her color, after reaching the last circle, and hop off the board.
5. The first pony to hop off the board wins the game!
