- ⑨ Sometimes Sprinkles likes to stand on the flat area by the sun while you dry her with the towel.

- ⑩ My Little Pony Waterfall requires special care to keep it in proper working order. After each use, clean by running clear tap water through the Waterfall until all traces of soap are removed. After cleaning, drain all water from Waterfall. Wipe dry with soft cloth.

You can let any of the My Little Pony Friends play in the Magic Waterfall.

My Little Pony Waterfall™

On sunny days all the little ponies gather under the waterfall to wash their long silky manes. Bubbles loves to sit in the middle of the pond and pop all the soap bubbles. Seashell wades in the shallow part and says it is the next best thing to being at the beach.

The ponies splash about and laugh at the antics of the pegasus Sprinkles, who lives among the clouds. "Catch me if you can," Sprinkles shouts as she flies into the rainbow and goes into a spiral loop!

Sprinkles™ the Pegasus and her sidekick Duck Soup™

One day when Sprinkles the Pegasus was flying up along the clouds, she discovered a waterfall. Under it was a beautiful pond, nestled among the clouds. Sprinkles flew down and began to splash and frolic in the water! She was having so much fun washing her mane and tail in the soap bubbles that she didn't notice someone else was there, too.

"Hi," quacked a voice. "My name's Duck Soup!" With a quick shake of her tail feathers, the duck waddled over to greet Sprinkles! Sprinkles knew right away that Duck Soup liked ponds as much as she did. They took a bubble bath together and soon became the best of friends.

Our Pony's Personality

Sprinkles enjoys taking long, luxurious bubble baths under the waterfall as well as flying over the rainbow in search of an adventure! She loves to play in the water and is learning how to dive. (Right now she's working on a back flip.) She often shows off her latest dive for the others when they are bathing in the pond.
